

Meat and Poultry Industry Conveyor and Processing Belts

Habasit – Solutions in motion

Innovation and process improvements

Industrial food production, especially sensitive meat processing, requires advanced technology and equipment capable of coping with the major challenges of today: optimized processes and yield; compliance with the latest hygienic designs; as well as improved cleaning efficiency and machine utilization – all with the ultimate aim of providing safe food at reasonable costs. Conveyor belts play an important role in all these aspects, since they are in direct contact with unwrapped food during most of the manufacturing process.

With this in mind, Habasit has developed a broad range of conveyor and processing belts that allow customers to choose the best solution for every application. Habasit solutions comply with all applicable food contact legislation (FDA and EU) and in addition, several products meet NSF  and USDA Meat and Poultry requirements.

Considering hygienic design principles for food conveyor and processing belts our top priority, Habasit products support HACCP concepts and safe food production, which means, quite simply, that we deliver tomorrow's sanitation standards today.

With the focus on meat and poultry processing, Habasit has introduced unique solutions that provide substantial process improvements.

Recent innovations include:

- **Habasit Cleandrive™** – proven features combined in a new hygienic belting category
- The **HyCLEAN product family** – the latest innovation within the **HabasitLINK® plastic modular belt range**, including a certified and awarded CIP (Cleaning-In-Place) system for efficient cleaning of plastic modular belts
- Oil- and fat-resistant **HySAN® PVC** coated belts
- Antimicrobial belts that provide an additional hurdle against the growth of micro-organisms
- New **HabaSYNC® timing belt** products with special covers

Habasit is the only belt supplier to manufacture and provide complete packages of different belting categories, as well as belting accessories like cleats, edge sealing, corrugated side walls, plastic side guards and guide rails, for all products within our portfolio.

Product liability, application considerations

If the proper selection and application of Habasit products are not recommended by an authorized Habasit sales specialist, the selection and application of Habasit products, including the related area of product safety, are the responsibility of the customer. All indications / information are recommendations and believed to be reliable, but no representations, guarantees, or warranties of any kind are made as to their accuracy or suitability for particular applications. The data provided herein are based on laboratory work with small-scale test equipment, running at standard conditions, and do not necessarily match product performance in industrial use. New knowledge and experiences can lead to modifications and changes within a short time without prior notice.

BECAUSE CONDITIONS OF USE ARE OUTSIDE OF HABASIT'S AND ITS AFFILIATED COMPANIES' CONTROL, WE CANNOT ASSUME ANY LIABILITY CONCERNING THE SUITABILITY AND PROCESS ABILITY OF THE PRODUCTS MENTIONED HEREIN. THIS ALSO APPLIES TO PROCESS RESULTS / OUTPUT / MANUFACTURING GOODS AS WELL AS TO POSSIBLE DEFECTS, DAMAGES, CONSEQUENTIAL DAMAGES, AND FURTHER-REACHING CONSEQUENCES.

Focus on meat and poultry processing

Whether for cutting, deboning, trimming, grading, dressing, breading, frying, cooling, weighing, slicing, portioning, shrinkwrapping, labeling or packaging, Habasit offers a complete range of belting solutions for all production processes in the meat and poultry industry.

We support your manufacturing processes

Habasit products support every stage of meat and poultry manufacture. Habasit food conveyor and processing belts are used in:

- Slaughtering
- Primary processing
- Further processing
- Sausage manufacturing
- Packaging

Slaughtering

Habasit offers a broad variety of solutions allowing you to choose the ideal belting product for your specific meat processing application.

HabasitLINK® Plastic Modular Belts

PP (Polypropylene)
PE (Polyethylene)
PA (Polyamide)
POM (Polyoxymethylene)
and various special materials and accessories.

Fabric-based/coated conveyor belts

PVC coated belts
TPU coated belts
TPO coated belts
Special coatings (e.g. antimicrobial)
and a wide range of belting accessories.

Habasit Cleandrive™

Extruded positive driven and flat conveyor belts made of abrasion- and hydrolysis-resistant TPU, which can be combined with a comprehensive range of accessories. A new generation of hygienic belting solutions.

HabaSYNC® timing belts

Abrasion- and hydrolysis-resistant TPU with several special coatings and surface finishes for specific processing and packaging applications.

Special solutions

HyCLEAN CIP

A modular, customized Cleaning-In-Place system for the reliable and efficient cleaning of plastic modular belts. (EHEDG certified and silver medal winner of the International FoodTec Award 2012)

Gearmotors

For corrosive and aseptic applications and environments.

Habasit's belting solutions deliver improved efficiency in meat conveying and processing, and are designed to meet tomorrow's sanitation standards today.

	Key features	Your benefits
	<p>HabasitLINK® plastic modular belts</p> <ul style="list-style-type: none"> • Dynamic open hinges and advanced hygienic design • Various closed and open belt styles and embossings • Unique HyCLEAN product family with patented design 	<ul style="list-style-type: none"> → Easy cleaning and release of debris → Good release and yield increase → For reliable product handling, cutting, deboning, cooling, freezing, draining → Up to 85% rod access and 100% hinge accessibility for improved cleaning efficiency
	<p>Fabric-based/coated conveyor belts</p> <ul style="list-style-type: none"> • Abrasion- and hydrolysis-resistant coatings • Antimicrobial TPU coatings • Oil- and fat-resistant PVC • Different surface embossings • Accessories and edge sealing 	<ul style="list-style-type: none"> → Reliable performance and long belt service life → Additional hurdle against growth of micro-organisms → Superior lifetime in wet, oily and fatty applications → Excellent chemical resistance
	<p>Habasit Cleandrive™ combines</p> <ul style="list-style-type: none"> • Closed homogeneous surface • Continuous drive bars over entire belt width • Flat versions available • Longitudinal reinforcement • Abrasion- and hydrolysis-resistant TPU 	<ul style="list-style-type: none"> → No gaps or hinges → Easy to clean → No creep, dimensional stability → Reliable sprocket engagement → Excellent chemical resistance → Ultimate hygiene solution
	<p>HabaSYNC® timing belts with</p> <ul style="list-style-type: none"> • Improved design and materials for wet and humid applications • Ability to apply special coatings 	<ul style="list-style-type: none"> → Precise positioning and conveying of goods → Easy to clean surfaces → Excellent chemical resistance → Various surface finishes for specific tasks in application
	<p>HyCLEAN CIP system with</p> <ul style="list-style-type: none"> • Outside spray tube • Idle spray bar with nozzles • Edge cleaning nozzles 	<ul style="list-style-type: none"> → Cleans entire belt conveying side → Cleans hinge area and reverse side, exactly when hinges are most open → Cleans the belt edges and especially the rod head and retention system → Fast and efficient cleaning → Reduced water consumption
	<p>HyCLEAN gearmotors</p> <ul style="list-style-type: none"> • Available with two different surface protection packages • Standard motor with surface protection • Smooth stainless steel motor without fins 	<ul style="list-style-type: none"> → Outstanding chemical resistance → Highly protected surfaces → Improved design for quick and efficient hygienic washing

Plastic modular belts	Key features	Your benefits
 Flat Top 2" (M5060)	<ul style="list-style-type: none"> • 24" wide modules available • Dynamic open hinge • Strong link design • Broad range of accessories • NSF  approved design 	<ul style="list-style-type: none"> → Less soiling and waste → Robust, reliable performance → Less link breakage → No trap for debris, easy to clean → Reduced downtime
 Cone Top 2" (M5013)	<ul style="list-style-type: none"> • Solid plate with cone top structure • Dynamic open hinge • Strong link design 	<ul style="list-style-type: none"> → Easy release = limited soiling and waste → Robust, reliable performance → Good grip and exact product positioning
 HyCLEAN Flat Top 2" (M5065)	<ul style="list-style-type: none"> • 24" wide modules • Extra-wide dynamic open hinge (6" inch pitch) • 85% rod exposure • NSF  approved design 	<ul style="list-style-type: none"> → Wider links and fewer hinges → Fewer traps for food residues → Superior cleanability of reverse side and rod hinge area
 Nub Top 2" (M5064)	<ul style="list-style-type: none"> • Dynamic open hinge • Nub top surface structure 	<ul style="list-style-type: none"> → Easy to clean design → Reduced surface contact with goods = easier release → Less waste and increased yield
 Flat Top 1" (M2510)	<ul style="list-style-type: none"> • Dynamic open hinge • NSF  approved design • Nub top structure available 	<ul style="list-style-type: none"> → Easy to clean → Reduced surface contact and better release of goods with structured surface → Less waste and increased yield
 Flush Grid 1" (M2533)	<ul style="list-style-type: none"> • 35% open area • Open hinge design 	<ul style="list-style-type: none"> → Ideal for cooling and draining → Easy to clean
 Radius Flush Grid 1" (M2540)	<ul style="list-style-type: none"> • 35% open area • Suitable for straight and radius applications 	<ul style="list-style-type: none"> → Excellent for cooling and draining → Easy to clean
 Flat Top 0.5" (M1220)	<ul style="list-style-type: none"> • Open hinge design • Small pitch 	<ul style="list-style-type: none"> → Gentle and reliable handling of small goods → Small transfers between two conveyors
 Micropitch (M0870)	<ul style="list-style-type: none"> • Dynamic open hinge • Smallest pitch with rod technology (0.3") 	<ul style="list-style-type: none"> → Easy to clean → Smallest transfer between two conveyors → Nosebar diameter 7 mm

Extruded belts

Key features

Your benefits

Habasit Cleandrive™

- Extruded positive driven (with 1" and 2" pitch) and flat belts
- Reinforced with high-tech filaments
- Hydrolysis-resistant TPU
- NSF  approved design

- Reliable tracking and advanced hygienic design
- No creep, no elongation
- Less soiling and easy to clean
- Reliable performance even in wet/humid environments with frequent cleaning

Fabric based coated belts

Smooth white

Smooth blue

Saw tooth

Herringbone

Cone Top

- Habasit TPU belts feature excellent abrasion- and chemical resistance
- Special material grades
 - Hydrolysis-resistant grades and belts with antimicrobial additives available
 - Non-adhesive and adhesive coatings
- Different colors and surface structures
- Reverse-side coating and edge sealing possible
- NSF  approved products available
- High-grade PVC coatings for oily and fatty applications
- TPO coatings with excellent chemical resistance

- Reliable performance and long service life
- Ideal for wet and humid environments with frequent cleaning
- Antimicrobial equipped coatings provide an additional hurdle against the growth of micro-organisms, especially in cuts, cracks and areas that are inaccessible for cleaning
- Supporting hygienic design and reliable food processing
- Fully capsuled and hygienic belt design with edge sealing and reverse-side coating
- No cracks or surface brittleness
- Ideal for frequent cleaning
- Extensive range of products, flights and accessories for specific tasks and applications

Round belts

Habiblue

- Extruded round belts, made of hydrolysis-resistant TPU in various diameters

- Good for conveying light-weight sliced ham or sausages
- Dimensional stability even in fatty and humid environments

Timing belts

HabaSYNC®

- High-grade Habasit timing belts covered with cone top or other structures
- Hydrolysis- and abrasion-resistant TPU types available

- Synchronous movement and precise positioning of goods
- Ideal for specific meat processing or packaging applications

Comprehensive services are central to Habasit's belting solution approach.

As committed partners to our customers, we are dedicated to sharing our knowledge and to providing full support.

Comprehensive consulting and technical support

Habasit offers the best consulting and technical support on the belting market. Everything revolves around our customers. Each affiliate has its own belting experts. The Habasit team proudly provides the highest levels of support and top quality products enjoyed by the global market for over 60 years.

Assistance with belt selection and calculation

We will select and calculate the most suitable belt for your specific application. You also may do this yourself with our state-of-the-art Habasit selection and calculation program "SeleCalc". To order this program free of charge, simply call your nearest Habasit partner or contact: info@habasit.com.

Fabrication, assembly and local installation services for quick reaction times

We make belts endless or assemble modular belts or chains, either at our own locations or on-site directly on your machine or system. Habasit operates 33 affiliated companies worldwide, each with its own inventory, fabrication, assembly and service facilities. Together with our representative offices and numerous qualified distributors, we can react quickly, competently and reliably to satisfy all your demands.

Customer training programs

Habasit offers training programs and provides support tools to ensure optimal use of our products and to prolong their lifecycles. Training on fabrication, installation, assembly, maintenance and belt repair takes place at Habasit sites or at your location.

Belt monitoring, inspections, analyses and process optimization proposals

We organize and handle belt maintenance, inspections, analyses and surveys for your locations. On request we will also work with you to develop optimization proposals, e.g. to achieve added value from the machinery or process output.

Design assistance for customized solutions

Habasit believes in partnership. Our engineering team will work closely with your engineers on joint design developments, preferably from a very early stage. We particularly recommend this for projects involving new technologies or large-scale modifications and adaptations.

Customers first

At Habasit we understand that our success depends on your success. This is why we offer solutions, not just products; partnership, not just sales. Since our foundation in 1946, Habasit has brought this understanding of customer needs to life every day and for every application. That's why we're the No. 1 in belting today. Worldwide. Learn more on www.habasit.com

Committed to innovation

Because our customers' belting challenges and needs never cease, we consistently dedicate a substantial percentage of our employees and resources to the research and development of new products and solutions.

Certified for quality

We deliver the highest quality standards not only in our products and solutions, but also in our employees' daily work processes. Habasit AG is certified according to ISO 9001:2008.

Worldwide leading product range

Habasit offers the largest selection of belting, conveying, processing and complementary products in the industry. Our response to any request is nothing less than a specific, tailor-made solution.
